

UCI ROAD TO REINVENTION:

a one-day conference for Executives on Leadership in the Digital Age

Ben Taylor
CEO
LedgerDomain

Ben is the CEO of LedgerDomain, founded in 2016 to bring blockchain solutions to enterprise ecosystems, unlocking a world of communal computing and real-time performance. After doing undergraduate and graduate work at MIT, Ben spent a quarter of a century incubating and investing in early-stage technology companies. In partnership with the Clinical Supply Blockchain Working Group, LedgerDomain developed the world's first iOS blockchain app for the clinical supply chain. As part of the US Food & Drug Administration's (FDA) DSCSA Pilot Project Program, LedgerDomain partnered with UCLA Health to deploy a last-mile application that helped deliver lifesaving medications at one of the busiest hospitals in the United States.
