

**Ramin Mousavi**  
**President & CEO**  
**CathWorks**

Ramin Mousavi is the president and CEO of CathWorks, a global digital health medical device company that combines artificial intelligence and computational science to transform how cardiovascular disease is diagnosed and treated. Ramin brings extensive executive leadership and operational expertise across various domains including general management, marketing, strategy, product development, and commercialization within diverse market segments. With a notable tenure leading the patient monitoring and digital health portfolio at Baxter International, Ramin has also held key leadership roles at Edwards Lifesciences, Panasonic, and Rockwell Collins.

He holds dual B.S. degrees in Computer and Electrical Engineering from the University of California, Irvine, complemented by an M.B.A. from the Paul Merage School of Business at UC Irvine. Additionally, Ramin has furthered his expertise with a Healthcare Executive Leadership certificate for Business Innovation in Global Healthcare from Harvard Business School.
