

Pranav Parekh
Head of Customer Success API Management Solution
Apigee Google Cloud

As the Head of Customer Success for Apigee, Google Cloud Platform's API Management solution, Pranav works with customers to drive value of Apigee and API Management as part of digital and business transformation initiatives. Before Google/Apigee, Pranav spent several years at Oracle & BEA Systems working with enterprises in the middleware space. Prior to Oracle, Pranav headed up product management and engineering teams at several startups delivering enterprise products in the web services management and publishing space.
